MFA FINANCIAL, INC. 401(K) SAVINGS PLAN
Notes to the Unaudited Financial Statements
December 31, 2018

1. Description of the Plan

The following description of the MFA Financial, Inc. 401(k) Savings Plan (the “Plan”) provides only general information. Participants should refer to the Plan documents for a more complete description of the Plan’s provisions, a copy of which is available from MFA Financial, Inc. (the “Company”).

General

The Plan, which became effective January 1, 2002, is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”). The Plan is administered by the Company’s 401(k) committee (the “401(k) Committee”) with certain administrative functions of the Plan delegated to others in accordance with the terms of the Plan. The Plan’s investments are held by a trust fund administered by Fidelity Management Trust Company (the “Trustee”). In February 2017, the Company transferred the recordkeeping, trustee services and investment options for the Plan to the Trustee. Prior to that date, the Plan’s investments were self-directed and were held in a trust for which Morgan Stanley Smith Barney, LLC served as trustee.

Investment Funds, Contributions and Vesting

Under the terms of the Plan, all regular full-time and part-time employees of the Company who are 21 years of age 1) can make elective contributions to the Plan beginning as soon as practicable after the date of hire; and 2) are eligible to receive Company matching contributions.

Participants may elect to have a portion of their eligible compensation contributed to the Plan on a before-tax basis, up to the maximum deferral permitted under the Internal Revenue Code of 1986, as amended (the “Code”). For 2018, this limit was \$18,500. Participants who are age 50 or older can make before-tax catch-up contributions to the Plan, the amount of which was limited to \$6,000 per participant in 2018. Participants may change their deferral percentage as applicable at the beginning of each payroll period. Participant’s contributions may be invested in one or a combination of the various investment options offered by the Plan. A participant’s account balance may generally be transferred among the Plan’s investment options at any time upon receipt of instructions from the participant, except for certain limitations, including, but not limited to, the provisions of the Company’s Insider Trading Policy.

On an annual basis, the Company makes matching contributions in cash for each eligible participant in an amount equal to the addition of 1) 100% of the first 3% of an eligible participant’s compensation contributed to the Plan; and 2) 50% of the next 2% of the eligible participant’s compensation contributed to the Plan. Company matching contributions are subject to certain limitations imposed by applicable provisions of the Plan and the Code, including compliance with applicable statutory limits and non-discrimination rules. For 2018, the annual maximum employer matching contribution for each eligible participant was \$11,000. Participants are immediately vested in their before-tax and Company matching contributions, as well as any investment earnings/losses thereon. During 2018, the Company made matching contributions of \$377,867 with respect to eligible employee contributions made during 2017. In addition, on an annual basis, the Company at its discretion, may decide to make nonelective employer contributions to eligible participants in the Plan. The Plan provides that such contributions by the Company will vest 20% after two years of service with an additional 20% vesting for each year of service thereafter until the sixth year, at which time such contributions are fully vested. The nonelective employer contributions are automatically fully vested upon a participant’s termination due to retirement, death or disability, as defined in the Plan.

Participants are permitted to transfer eligible amounts from certain other tax qualified plans to the Plan (“Rollovers”), subject to Plan requirements. Rollovers are not subject to Company matching contributions.

The Plan provides for multiple investment options to be made available through the Trustee, including core investment options as determined by the 401(k) Committee, a group of target date options, an advisory asset management service and a self-directed brokerage option. In addition, the Plan document requires that both the Company’s common and preferred stock be offered as a core investment option, subject to compliance with ERISA. Contributions or Rollovers related to the Company’s common or preferred stock are also subject to the Company’s Insider Trading Policy. See Note 3 for Investment Options under the Plan.

MFA FINANCIAL, INC. 401(K) SAVINGS PLAN
Notes to the Unaudited Financial Statements
December 31, 2018

Notes Receivable from Participants (Loans)

The Plan includes a provision that allows participants to apply for a loan from their account balance for a minimum amount of \$1,000 up to the lesser of 50% of the value of the vested portion of their Plan assets or \$50,000, subject to the certain restrictions set forth in the Plan and the Code. The loans may be repaid through payroll deductions and may have loan terms ranging up to five years, or ten years if for the purchase of a primary residence. A participant may have only two loans outstanding at a time. The loans are secured by the balance in the participant's account and bear interest at a fixed rate throughout the duration the loan of prime plus one percentage point. At December 31, 2018, loans outstanding to participants had interest rates ranging from 4.25% to 5.75% and will mature at various dates through May, 2023.

Distributions and Withdrawals

Participants are permitted to withdraw any portion of their vested account balance due to death, permanent disability, retirement, attainment of age 59½, or in the event of financial hardship or termination of service. The participant may elect to receive a lump sum payment, installment payments, or rollover the vested account balance to another qualified plan. Hardship withdrawals are allowed for participants incurring an "immediate and heavy financial need," as defined by the Plan. Hardship withdrawals are strictly regulated under the Code and the regulations thereunder, and a participant must exhaust all available loan options and available distributions prior to being permitted to make a hardship withdrawal.

Administrative Expenses

Plan administrative expenses, to the extent not paid by the Company, are charged to and paid from the Plan's assets as incurred.

2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with U.S. generally accepted accounting principles ("GAAP").

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the Plan's management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes and schedule thereto. Actual results could differ from those estimates.

Cash Equivalents Including Money Market Funds

Participant investments in money market funds, whose underlying investments are assessed to be liquid financial instruments are considered to be cash equivalents.

Valuation of Investments and Investment Income

Investments held by the Plan are stated at estimated fair value. Equity securities are valued at the closing price reported on the market on which the individual securities are traded on the last business day of the Plan year. Investments in mutual funds are valued at the net asset value of units held by the Plan as reported by the mutual fund on the last business day of the Plan year. Other investments are valued using available information including information reported on the market on which such investments are traded, net asset value of the entity that issued the investment security or other information as deemed appropriate to use to estimate fair value.

The net appreciation or depreciation in the fair value of investments, which includes any unrealized appreciation or depreciation on those investments plus realized gains or losses on any investments sold, are reported in Investment Income on the Plan's Statement of Changes in Net Assets Available for Benefits. Interest and dividend income is recorded when received.

MFA FINANCIAL, INC. 401(K) SAVINGS PLAN
Notes to the Unaudited Financial Statements
December 31, 2018

Distributions to Participants

Distributions to participants are recorded when paid by the Plan.

Notes Receivable from Participants

Notes receivable from participants (loans) are funded directly from the participants account balance. Repayments of principal and interest related to the loan are credited to the participant's account on a pro-rata basis in accordance with their selected investment options.

3. Investment Options

The Plan provides participants with various investment options, which are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of a participant's investments could occur in the near term and that such changes could materially affect the account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

In addition to the self-directed brokerage account option, set out below are the investment options made available under the Plan as of December 31, 2018:

4. Party-in-Interest Transactions

The Trustee and the Company are parties-in-interest with respect to the Plan. The Plan's investments are held by the Trustee, and certain of the investment options available to participants include investments managed by the Trustee and its affiliates. Transactions between the Plan, and the Trustee and its affiliates, are exempt from the prohibited transactions rules under ERISA. As of December 31, 2018, participants in the Plan held 118,910 shares of MFA Financial, Inc. Common Stock valued at \$795,348 and 6,784 shares of MFA Financial, Inc. 7.50% Series B Cumulative Redeemable Preferred Stock valued at \$165,674. Notes Receivable from Participants, as discussed in Note 1 (Description of the Plan), are also considered to be party-in-interest transactions and totaled \$85,917 at December 31, 2018.

Notes to the Unaudited Financial Statements
December 31, 2018

5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Each participant's interest in the Plan is 100% vested at all times, including the portion attributable to Company matching contributions. In the event of Plan termination, any unvested nonelective employer contributions will become 100% vested and the Plan assets will be distributed in accordance with the Plan document.

6. Tax Status

The Plan has received a determination letter from the Internal Revenue Service ("IRS") dated March 31, 2014, stating that the Plan is qualified under section 401(a) of the Code, and therefore, the related trust is exempt from taxation.

7. Subsequent Events

The Company has evaluated whether events or transactions have occurred after December 31, 2018 that would require recognition or disclosure in these financial statements through June 18, 2019, which is the date these financial statements were available to be issued. No such transactions required recognition or disclosure in these financial statements.
